CAREER OBJECTIVE

Aspiring to build a successful career in software development by leveraging my knowledge in programming, problem-solving skills, and passion for innovation. I am eager to work in a dynamic environment that fosters creativity and professional growth.

EDUCATION

ADVANCED FULL STACK WEB DEVELOPMENT(MERN)

Techmaghi Experience Centre, Ernakulum – July 2024- January 2025

B. TECH – COMPUTER SCIENCE

APJ Abdul Kalam Technological University - November 2020 – June 2024

HIGHER SECONDARY EDUCATION

Amrita Vidyalayam, Pandalam - June 2018--March 2020

EXPERIENCE

INTERNSHIP EXPERIENCE- MERN Stack Developer

Techmaghi Experience Centre, Ernakulam,India- July 2024- January 2025

PROJECTS

Task Manager ([Github](#))

- Developed a full-stack task management application using React (frontend), Node.js with Express (backend), and MongoDB (database) to ensure a seamless user experience.
- Designed a secure and scalable platform that allows users to create, manage, and track tasks efficiently while maintaining data integrity.

MuseAI ([Github](#))

- Developed an AI-powered poem generator that crafts creative poems based on user prompts, leveraging Google's Gemini AI for intelligent text generation.
- Built with the MERN stack, the application includes user authentication, poem history storage, and a seamless user experience for personalized poetry generation.

GameStack ([Github](#))

- Developed a RESTful wishlist application using Node.js, Express, and MongoDB, enabling users to manage their wishlist items efficiently.
- Implemented CRUD functionality with Mongoose integration, ensuring seamless data handling and database interactions.

Music-app ([Github](#))

- Developed a responsive Spotify-inspired web application using React, delivering a seamless and interactive user experience.
- Replicated key features of the Spotify web player, including music playback, dynamic UI, and user-friendly navigation.

E-commerce Website ([Github](#))

- Built a responsive e-commerce website for an online clothing store using React, Node.js, Express.js, and MongoDB, ensuring a smooth shopping experience.
- Implemented key features such as user authentication, product management, and a shopping cart for seamless order handling.
