Techmaghi

Projects

Task Manager

Developed a task management app with React, Node.js (Express), and MongoDB, featuring secure RESTful APIs and a responsive UI.

GitHub

GameStack (Backend)

Developed a RESTful wishlist app using Node.js, Express, and MongoDB with CRUD functionality and Mongoose integration.

GitHub

Music-app(Frontend)

Developed a responsive Spotify-inspired web application using React, replicating key features of the Spotify web player.

GitHub

E-commerce Website

Built a responsive e-commerce website for an online clothing store using React, Node.js, Express.js, and MongoDB with features like user login, product management, and a shopping cart.
